

SUBLI TOUCH

High-Definition touch

SUBLITEX
The Innovative Printing

SUBLITOUCH A successful film

SUBLITOUCH: the brand new product by SUBLITEX.

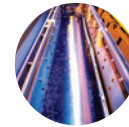

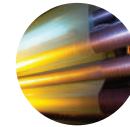

SUBLITOUCH is the evolution of DecotransAlu, transfer film for wood effect decoration of aluminum launched onto the global market by Miroglio Group more than 20 years ago.

SUBLITOUCH will "touch" you with its embossed grains in relief as if it were a real and natural wood.

The enhanced solution for decorating Aluminium windows and doors and "TOUCHreal wood"!!

SUBLITEX

The Innovative Printing

Powered by SUBLITEX

Established in 1976 from an ambitious project of Miroglia Group to lead the newborn sublimable dye technology, SUBLITEX is today a leading company in its fields of applications and first to develop metal decoration technology.

The key to such success is continuous innovation, research, development and creativity, making SUBLITEX a world reference for meeting customer's requirement and customization.

SUBLITOUCH is the latest example of how meeting clients needs is the focus of today's SUBLITEX activity.
